IBC Blender -Small Scale

The concept is simple. The same Intermediate Bulk Container (IBC) that is used for shipping and storage is also used for blending.

- Total product containment
- No cleaning required on blender. The IBC is cleaned off-line
- No cross-contamination
- Fast blending
- Less ingredient segregation
- Increased process flexibility
- Portable up to 5 ft³ (150 liter) blending volume

Portable Mini Blender

Bench Top Blender

Portable Column Blender

From food to chemical to pharmaceutical, Custom Powder Systems and Integrated Containment Systems serve a multitude of industries as a leading provider in Dry Material Handling/Process Equipment. We design, manufacture, integrate, and test all of our systems in-house and our highly experienced technical services team will respond quickly to any need that arises. Whatever the material handling question, we've got the answer.
